

RURAL SCHOOLS PROBLEM

DECLARED THE MOST IMPORTANT EDUCATIONAL PROBLEM.

Central School the Remedy, Giving Agricultural Education Where None is Given To-day.

Dr. P. P. Claxton, United States Commissioner of Education, made two forceful addresses to the School Directors in convention last Thursday. He is the highest authority in the land on the subject upon which he speaks. He knows what he is talking about and made clear his declaration that the rural school problem is the most important educational problem of the day.

In his first address on the "Education Needed for the Farmer and the Farmer's Wife," he established the proposition beyond all dispute that the farmer needed to know more things than any other class of the world's workers, that the town man usually did one thing over and over again, but the farmer did many things. Along with this proposition went a second one that the farmer received no education whatever for the work to which he was to devote his life.

Dr. Claxton urged the centralization of schools. At present there is a school to every 2 1/2 square miles. In Adams county there should be but 50 schools instead of over 200. There should be a school about every 10 miles square, 50 per cent. of the children would be within one mile of the school and too distant scholars could be conveyed. Good attractive school houses could be built and schools graded with vocational training, a laboratory and domestic science department. There should be a school farm of from 25 to 40 acres and teachers to instruct in agriculture by making it one of the best farms in the community. One-half of the children should be at work on school farm while the other half are at lessons.

Prof. J. A. Pentz of Harrisburg, Thursday morning spoke on "Equipment." A carefully selected teacher and text-books and plenty of room for a playground, and in the afternoon on "Co-operation." Thursday evening Taber, the magician, entertained the directors.

Prof. R. M. McNeal, of the Department of Education at Harrisburg, and Prof. L. H. Dennis, State Expert Assistant in Agriculture, addressed the directors on Friday morning and afternoon, touching on the part the directors can take in the formation of public sentiment and upon "The Farmer of To-morrow."

Friday afternoon the delegates attending the State Convention, made their reports and the following officers for the coming year were elected:

President, Rev. W. K. Fleck, Fairfield; Vice Presidents, Robert K. Major, Straban township, and E. L. Eckert, Oxford township; Secretary, Samuel R. Bair, Conewago township; Treasurer, Irvin L. Taylor, Gettysburg; Auditor, Emory H. Plank, Cumberland township.

Delegates to attend next year's State Convention were chosen as follows: Henry Hantz, Reading township; Rev. W. K. Fleck, Fairfield; John W. Smith, Tyrone township; Orpheus Diller, York Springs; H. S. Reigie, McSherrystown. The alternates chosen are Bernard P. Topper, McSherrystown; Willis N. Hartman, Menallen township; I. I. Heretier, Highland township; Charles Haier, Abbottstown.

At a regular meeting of the Parent-Teachers' Association last Friday evening, Prof. R. M. McNeal, of Harrisburg, a member of the Department of Education, declared to the audience of about three hundred people that he had traveled over the entire State and had been in touch with similar organizations, but had never seen as large an organization as in Gettysburg devoted to progressive school work.

Mrs. E. A. Weaver, the president, called the meeting to order and minutes were read by Miss Blanche Swope, secretary. The entire musical program was then given, consisting of a vocal quart by Misses Daisy Wentz and Rudine Rudolph, violin solo by Miss Norma Ferguson, piano duet by Misses Lucille Daniels and Mary Himes, and a vocal solo by Miss Reba Miller.

Prof. McNeal then made his address, dwelling at length on the value of the association, the encouragement it gave the teacher and directors, the information of the schools it continually gave so as to make them better understood to parents and the public. It was a force for the making of healthy public sentiment about the schools and he congratulated the town upon having such an organization which meant so much in the work of the betterment of the schools.

Mrs. T. J. Winchbrenner made an excellent report for the Visiting Committee commending the schools, except that the colored school needed cleaning and some repairs. The Domestic Science Department was highly praised and the opinion was expressed that the Manual Training

was handicapped in the location and equipment, and that this department deserved attention for its betterment.

A motion was then presented by Wm. Arch. McClean that the Association recommend that the school directors rent a property near the High School in which to temporarily locate the Domestic Science Department and the Manual Training Department. It was pointed out that the State would require an addition to the Domestic Science Department next September, such as housekeeping, and there was no room for same in the High School. That the only time to procure a house near by in which to locate these departments was before April 1st of a year. That in order to be ready for what was to come in September, a house should now be rented and use of same could begin in April and the Manual Training Department could secure either in such a rented house or rooms vacated by the Domestic Science space needed for its proper development. There was no opposition to the proposed motion and Prof. Burgoon stated that in Providence, R. I., the most successful experience in the country in domestic science had been made with house in which such departments were located.

Miss Anna Fox being called upon, stated that the exhibit of her department would speak for itself, and complimented her classes for their accomplishments. The first floor of the High School contained a most excellent exhibition of the Domestic Science and Manual Training Departments. From the latter were bread boards, umbrella racks, bookcases, tables, porch swing, cabinets, and other objects. The Sewing Room contained a fine exhibit of choicest articles, garments of all kinds, fancy articles, kimonos. The Dining Room had a most attractive display of substantial and other articles to eat. Over \$12 was made in the sale of these eatables which proved as good as they looked and part of the proceeds have already been spent on needed equipment.

Nine new members were reported. Mrs. Frank Stallsmith, Mrs. Jacob Ramer, Mrs. Joseph Topper, Mrs. Lewis Spahr, Mrs. Emory Sheads, Mrs. O. H. Letz, Prof. Shappell, Prof. K. G. Grimm, and Mrs. Charles Knox.

The Freshman Class won the Home and School Banner with an attendance of 22.

The Program Committee for next month is I. L. Taylor, Miss Maud Miller, and Mrs. K. G. Grimm.

The Visiting Committee is Mrs. H. Milton Roth, Mrs. E. E. Slaybaugh, Mrs. Charles Rediff, Mrs. Mary Power, Mrs. George Taylor, Mrs. R. E. White, Mrs. W. W. Dutera, and Mrs. Scott.

A penny collection was asked from the school toward Child Welfare to be given on Wednesday, Founders' Day.

Bank Increases Capital.

The First National Bank of Gettysburg by a unanimous vote of all stockholders participating in the election on Tuesday voted to increase the capital of the bank \$50,000, from \$100,000 capital to \$150,000. The par value of the stock of the bank is \$100 and the stock has sold as high as \$48. The increase of stock will yield the bank much more than face value, for it will be sold at \$40, and half of the price realized will be added to the surplus in the bank which at the last statement was \$20,000. When the new stock has been sold, the capital of the bank will be \$150,000 and its surplus \$20,000.

It is proposed to allow the present stockholders to buy one new share for each two shares now held and it is expected that there will be quite a number of shares that will not be taken and that these will be disposed of in limited amounts to persons who are not now stockholders.

—Miss Anna Hake of Tyrone was the principal speaker at the mid-winter meeting of the Civic League of that city, her subject being "How to Teach Children Good Taste."

Gettysburg National Bank.

100TH ANNIVERSARY OF BANK WAS CELEBRATED WITH A VOLUME TELLING ITS HISTORY.

Wm. McSherry, President of the Bank, Prepared the Story of the Oldest Banking Institution.

The Gettysburg National Bank with the close of 1914, celebrated its hundredth birthday by the issuance of a very complete history of the bank, prepared by its president, William McSherry, Esq. The volume was in the hands of the Directory for Christmas and a large issue of the book is now ready for the bank.

The wonderful story is most interesting, told by Mr. McSherry, of the business of the bank from the first statement to the close of the 100th year, resulting in an increase of over 600 per cent. of a surplus that grew from \$1251.83 to over \$150,000, of deposits starting at \$7,000 and now reaching, including special deposits, more than \$225,000. The total earnings of the bank were nearly \$300,000. The bank has never failed to declare at least one dividend a year and this in years when war and financial troubles deluged the nation.

The work of Mr. McSherry has been thoroughly done, covering the bank of Gettysburg from 1814 to 1864, and of the Gettysburg National Bank from 1864 to 1914. Interesting notes from the minutes of the bank are given and bank has been through great periods, as in January 1866, when a fifty per cent. dividend was declared. The story of the home of the bank during the 100 years is told with descriptions of the handsome new building. There are biographical sketches of presidents, vice presidents, cashiers, officers, former directors and the present directors.

One of the features of the book that will be enjoyed are the illustrations. The frontispiece is a picture of the present bank house. There is a group picture of four presidents, George Smyser, George Swope, John A. Swope, and David Willis. Pictures of former directors have a value all their own, including James Gettys, James McSherry, Thaddeus Stevens, Samuel Lilly, Henry Wirt, James McSherry, Jr., William McPherson, David Kendeheart, Jacob Resser, Henry Wirt, Jr., Lewis M. Motter and William McSherry. Reproductions of the old bank notes are given, of the former banking house, the four cashiers, covering the entire century. John B. McPherson, T. D. Carson, J. Emory Bair, and Edw. M. Bender. Among former officials are pictures of Wm. D. Himes, John H. McClellan, H. S. Bennett, Chas. M. McCurdy and John Bruce McPherson.

There is a group page of the present directory, Thos. G. Neely, Wm. McSherry, C. L. Longsdorf, D. P. McPherson, N. C. Trout, W. H. O'Neal, C. Wm. Beales, C. W. Johnson, and Josiah Prickett. There are three interior views of the bank of today and likenesses of present officials, H. C. Picking, I. L. Taylor, J. W. Kendeheart and Chas. W. Stock.

The volume most appreciably memorializes one hundred years of the oldest banking institution in the country. The printing is the work of the "Compiler," the finest materials being used and no efforts spared to make the book as fine looking as it could be made. We have been enjoying many highly complimentary words over our work.

The Apple Outlook.

At the February meeting of the Fruit Growers' Association at Fruit Growers' Hall, Bendersville, there were a number of interesting talks by fruit growers.

Chester J. Tyson, on "The Apple Outlook," said in part:

"Millions of apple trees have been planted, north, south, east and west. Careful estimates show that not half

the trees planted in commercial orchards in the past ten years are yet in bearing. The year of 1914 produced a crop that has been mighty hard to market on a profitable basis. 1912 crop was "erging on the same condition. Unless apple consumption can be tremendously increased and the cost of distribution greatly decreased, there are bound to be some mighty tough years ahead of us."

"If you have not planted, I say, go slow, consider well. If you own the land, it is entirely possible that corn and grass and livestock may pay better in the years to come than orchards, with much less investment in your plant."

"If you do not own the land, then I say, go slower still. Invest your money in good bonds and wait to see how all this craze will work out. You may live to see the wisdom of this advice."

"As an association and as individuals, it seems to me wiser and far savor to stand for better care of the trees already planted, and for better packing and distribution, rather than for increased planting of apple trees."

"A few people have planted orchards in the past year or two and are discouraged and feel like pulling out the trees and giving the land back to general farming. If you have good varieties on good apple soil, located right and the trees thriving, and if you intend to give the trees the very best care you know, then I say stick to it, and I feel sure the orchard will pay in the end just as well as any other farm crop would have done."

"On the other hand, the man who has planted apple trees on land not suited for orchard, or who has poor varieties, or who has gotten poor trees that do not grow, or who figures on letting the orchard go its own gait and produce what it will, had better pull out the trees and use the land to grow wheat for the European armies."

W. W. Boyer, on "Pruning," explained how this work should be done so as to accomplish the necessary thinning and at the same time to allow entrance of air and sunshine and to carefully balance the tree.

C. Arthur Griest spoke on "Peach Growing," and dwelt on the proper location of site, selection of trees to be planted, preparation of soil for the planting, care of the trees, pruning, thinning and marketing.

End of Brodbeck-Beales Contest.

Congressman A. R. Brodbeck has withdrawn his contest to the election of C. Wm. Beales from the 20th Pa. District to the 64th Congress. This withdrawal is to be commended as the only course to be followed in view of the testimony developed. This course was advised by a petition signed by 50 Democrats of York county as being in the interests of the welfare of the party. On Tuesday evening Congressman Brodbeck sent a letter to Congressman-elect Beales, which tells the story of the case of the contest, as follows:

"C. William Beales, Esq., Dear Sir:—For reasons set forth in a formal communication this day forwarded by me to the Speaker of the House of Representatives, a copy of which I enclose herewith, I have withdrawn the contest heretofore instituted by me respecting the last congressional election in the Twentieth District of Pennsylvania. I am writing you to notify you that there will be no further proceedings on my part and you may therefore disregard the notification of contest which I have heretofore served. Yours respectfully,

A. R. BRODBECK."

The letter to Speaker Clark after directing withdrawal of contest closes as follows:

"Whereas, after taking considerable testimony, I find that I was misinformed as to the facts I expected to prove, and I therefore withdraw and will proceed no further and I announce to you that I do so withdraw my contest to prevent the seating of C. William Beales of Gettysburg, as the representative from the twentieth district in the sixty-fourth congress."

AN ORDINANCE.

AUTHORIZING THE BOROUGH OF GETTYSBURG TO CONTRACT WITH GETTYSBURG LIGHT COMPANY FOR ELECTRIC LIGHTS.

Section 1. That the Borough of Gettysburg, by reason of the former excessive cost of electricity has heretofore authorized the construction, equipment, operation and maintenance of a municipal plant for furnishing electric lights for the streets and other public places within said Borough; and

WHEREAS, The Gettysburg Light Company now offers to furnish and maintain all necessary electric street lights at an annual cost which does not exceed the amount for which the Borough could reasonably expect to operate and maintain a municipal plant for the same purpose, and thereby enable the Borough to save the amount of the initial cost of constructing and equipping such municipal plant; therefore,

The Town Council of the Borough of Gettysburg, County of Adams and State of Pennsylvania does ordain:

Section 1. That the Borough of Gettysburg hereby contract with the Gettysburg Light Company for the purchase from said company of electric street lighting for the period and at the prices and upon the conditions hereinafter contained, and that the President of the Borough be and he is authorized to execute such contract in the name and on behalf of this Borough and that the seal of this Borough be affixed unto such contract and attested by the Secretary of its Town Council.

Section 2. That the said contract with the Gettysburg Light Company shall be in the form and upon the terms and conditions following, namely:

Gettysburg Light Company agrees to supply electric lights to the Borough of Gettysburg for lighting the streets, alleys, highways and other public places within said Borough and for that purpose to furnish, install, maintain and renew all poles, wires, lamp equipment and other apparatus necessary therefor, as follows:

(1). To furnish such number as the Borough may from time to time require a designate of 22 and 60 candle power lights of the kind known as "Edison" or "Tungsten Filament Lamps" and of 50 and 100 and 250 candle power lights or lamps of the kind known as "Nitrogen Filament Lamps," all of said lights or lamps to be kept in stock by the company and to be maintained and replaced so that they shall at all times illuminate substantially to their full normal capacity.

(2). To erect, install and place at all times to use in the location of said lights on the public streets, alleys, highways and other public places in the Borough, at and to such places and at such to such elevations as may be designated from time to time by the Town Council of said Borough.

(3). All lights furnished shall burn and illuminate continuously throughout each day every night from one hour after sunset until one hour before sunrise, except on days when the moon is in the sky, when they need not burn or illuminate from one hour after moon-rise until one hour before moon-set, unless during such time the moon is obscured.

(4). To record showing the time of turning on and off of said lights shall be kept by the Company which shall at all times be open to the inspection of the Borough officers, employees and agents, and at the times the lamps, or other equipment, or apparatus supplied electricity aforesaid to the Borough shall be open examination and inspection by the Borough officers and officers.

(5). If any of said lights be not lighted or shall not light up to substantially the full normal capacity, for any continuous period of more than two hours in any night as heretofore required, the Borough shall be entitled to deduct from the rate of \$1.00 per lamp per year, for five cents per lamp under 100 C. P. and ten cents per lamp of 250 C. P. and over. Provided that no deduction shall be made for outages occasioned by the act of God, or of fire, or other cause beyond the control of the Company, when the Borough shall be entitled to deduct a proportionate amount the time during which they were not lighted. The written report of any pole or other equipment or apparatus or agent of the Borough as to the time during which said lights are not lighted as required shall be prima facie evidence of the same.

(6). The Light Company shall furnish electric current to the Borough at the rate of one cent per kilowatt hour, and the Borough shall pay for all current used in excess of that amount at the rate of one cent per K. W. as measured by a standard meter.

IN CONSIDERATION WHEREOF, the Borough of Gettysburg agrees to pay unto the Gettysburg Light Company the monthly payments of \$1.00 per lamp per year, commencing on the 1st day of the month next succeeding the month of January next, and to pay the balance of the consumption the following sums, less deductions and penalties heretofore mentioned, to wit:

For 32 candle power lamp at the rate of \$1.00 per lamp per year.
 For 60 candle power lamp at the rate of \$1.00 per lamp per year.
 For 50 candle power lamp at the rate of \$1.00 per lamp per year.
 For 100 candle power lamp at the rate of \$1.00 per lamp per year.
 For 250 candle power lamp at the rate of \$1.00 per lamp per year.

It is mutually agreed that the period of this agreement shall commence on March 1, 1915, and be fully ended on March 1, 1916, and that the contract shall be binding upon the Borough and the undersigned officers and for the benefit of the successors and assigns of the respective parties.

It is hereby understood and agreed to, neither the purpose nor intent nor the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, is such as to impair or in any wise effect the powers by said Commission of any of the powers vested in it by the Public Service Commission Law, approved July 26th, 1913.

Section 3. That neither the purpose nor intent nor the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, is such as to impair or in any wise effect the powers by said Commission of any of the powers vested in it by the Public Service Company Law, approved July 26th, 1913.

Section 4. All ordinances and parts of ordinances inconsistent herewith and especially the ordinance adopted August 2, 1914, and approved September 12, 1914, entitled "An Ordinance authorizing and enabling the Borough of Gettysburg to construct, operate and maintain an electric light plant, with equipment and facilities for the furnishing of electricity for the lighting the streets, highways and public places within the Borough," and all parts of said ordinance are hereby repealed, and the same are hereby repaired.

Section 5. The Gettysburg Light Company shall reimburse the Borough for the cost of advertising the ordinance of the Town Council of said Borough to the same to the Public Service Commission of the Commonwealth of Pennsylvania for approval.

Enacted and ordained this 2nd day of February, 1915.

J. L. BUTT, Mayor.

C. R. RITZMILLER, Secretary.

Approved 2nd day of February, 1915.

CENTRAL SCHOOLS.

After listening to the address of Dr. C. E. Cotton on the rural school problem, we can not help wondering how the school directors will do things. We believe to an absorbing desire to do some of the good things pointed out, especially going on in Old Adams. The school directors go together and do some of the things recommended by the very best advisers. For instance why cannot the school directors of Arden'sville, Mendell, Franklin and Butler get together and establish a central school at Arden'sville. That borough has two school buildings to offer as an equipment. Each townships for play-ground and farm work. Each township might suspend the nearest school or schools and teachers cut out added to the central equipment. Agricultural Department and Domestic Science Department should be added under the vocational law, for which the State pays two-thirds of the expense. Our suggestion as to Arden'sville is because of the equipment of that town. If the directors up there are slow to move, there are many other spots in the county where the directors of three or four districts could find their way with a central school. Why not start?

APPLE OUTLOOK.

There is no question that the apple grower today is up against many troubles he did not face a few years ago. The care of the orchard is a growing science. It must come to the standardized pack and there is much to be learned yet about marketing the crop and much to be done in the way of publicity to increase the demand for the apple. We do not, however, have any anxiety or fear for the Adams county fruit grower, expressed by Mr. Tyson, in his talk at the apple growers' meeting at Arden'sville last week. The Adams county apple in quality is at the top in the apple market. The Adams county apple has a color and flavor surpassing apples north, east, south and west. Our Adams county farmers are making no mistake to commercialize the exceptional fruit soil of the county in the raising of apples that are in quality, color and flavor at the top of the apple cultivation. The Adams county apple can be kept at the head, so that the demand for our apple will be in preference to all others. Adams county has the apple that will stand out in all promotion and publicity tests. In other words we are optimistic as to the Adams county apple, grown upon what has been established as ideal fruit soil and which will always give the farmer his best crop—more money to the acre—than can be raised from any other commercial crop.

FULL CREW LAW.

The attention of our readers is invited to the advertisement on third page as to the Full Crew Law now affecting the railroads. When the railroads came to the public with such an open and candid statement it is to be received in the same way and given careful consideration. If the full crew law makes unnecessarily more costly railroading, with the public paying the expense, it should be corrected. The truth is this country was welded into a great empire with its thousands of miles of railroad built during a period of liberal subsidies to the railroads. The swing from such a time has been to one of repression. The right attitude is one of adjustment to economic law and service, where railroad values labor and the public good can be safeguarded and conserved.

Bridge Wanted.

About twenty residents of Cumberland and Freeborn townships and Postmaster Duncan asked the County Commissioners on Tuesday to build a bridge at the Natural Dam. The bridge has been authorized for a long while and high waters make delivery of mails impossible frequently during the year. The commissioners have the matter under consideration and either a bridge or a road to avoid the fording will result.

Dog Had Rabies.

A large white hound of George Stroup was killed on Monday after having bitten Master Bub McCullough, son of Mr. and Mrs. Maurice McCullough, and a number of dogs throughout the town. The head was sent to Philadelphia and report was received on Wednesday that dog had rabies. Earl Stroup whose hand had been bitten by the dog and the little McCullough boy will receive the best treatment from Dr. Crist. A killing of dogs has started and a quarantine may result.

Postmaster.

T. H. Warren has been named as postmaster of the town of Mendell, Pa. He will take office on March 1st.

RUNK & PECKMAN'S

Realty Report

The real estate market during the year 1914 was comparatively dull, but since January 1st there has been a marked improvement and it is rapidly approaching its normal state. There is now a good healthy demand through our office both here and at Chambersburg, for properties at fair prices. Several owners came to us in the last few weeks and re-listed their properties at fair prices and in each case we quickly found a buyer.

If you have a property to sell, list it with us now at the price you would pay if you were buying instead of selling, and you will get quick results. It is a waste of time and money to offer a property at a price above its actual worth. We want more properties to sell. We have many buyers. But, unless you really want to sell and are willing to co-operate with us and give the same fair treatment you expect us to give you, don't list with us.

Among other recent sales, we report the following: a farm for R. C. Miller, a fine lot on Springs avenue for Mrs. W. C. Sheely, a house and lot on Hanover street for C. B. Dougherty, grocery store for R. B. Diehl house and lot on Chambersburg street for John Kimpke, house and lot on Railroad street for Isaac Kauffman, also several small country places.

PROPERTIES FOR SALE.

Biglerville Lots.—We have just listed 3 fine building lots on High St., in Biglerville. These lots are 52 feet wide, have cement pavements water at the front, face the east, lay high overlooking the town and were specially selected several years ago when this plot was first opened on account of their desirable location. Price \$225, \$250, and \$275. If you contemplate building in Biglerville now or in the future it will pay you to buy one of these lots now to be sure of your location. They will never be worth less than today.

House and Lot in Gettysburg. 7 room, 2 story brick, located in west part of town in good neighborhood, slate roof, bath and pantry, front, side and rear porches, graded lawn, poultry house, all buildings new and in fine condition, lot 45 x 180 feet, cement pavements, corner property, price \$3600. Possession April 1st.

House and Lot. 8 room frame, near new post office building, front porch, rear porch and balcony, natural wood finish, hot air heating plant, bath, gas, hot and cold water, large barn, garden and truck patch, fruit, graded lawn, very desirable place. Price \$2250; half cash, balance can remain in at 5 per cent. possession subject to tenants lease for one year.

Warehouse and Coal Yard.—Doing a Steady Business. This is an old and profitable business with a well established trade. Full particulars and price to interested parties. A splendid opportunity to acquire in well-founded business.

Gettysburg Building Lots:

1st lot on Seminary avenue, corner lot, \$250.
2nd lot on Seminary avenue, corner lot, \$250.
3rd lot on Seminary avenue, corner lot, \$250.
4th lot on Seminary avenue, corner lot, \$250.
5th lot on Seminary avenue, corner lot, \$250.
6th lot on Seminary avenue, corner lot, \$250.
7th lot on Seminary avenue, corner lot, \$250.
8th lot on Seminary avenue, corner lot, \$250.
9th lot on Seminary avenue, corner lot, \$250.
10th lot on Seminary avenue, corner lot, \$250.

Pented Farms for Sale.—subject to tenant's lease. Buy and increase in land values. Big fortunes have been made by tenants' leasehold in rented farms by men who know how to increase the value of leased properties.
